**INFORMATION DISCLOSURE STATEMENT**

Sir:

In compliance with the Applicant's duty of disclosure under 37 CFR §1.56, Applicant brings the attached documents to the attention of the U.S. Patent and Trademark Office in accordance with the provisions of 37 CFR §1.97-99. A copy of each document is enclosed and each document is listed on the enclosed PTO 1449.

No admission is made that the information cited in this Information Disclosure Statement is, or is considered to be, material to patentability nor a representation that a search has been made (other than search report(s) from a counterpart foreign application or a PCT International Search Report, if submitted herewith) 37 C.F.R. §§1.97(g) and (h).

The present application corresponds to a German patent application filed by the applicants, from which priority for the present application is claimed. The applicants have received a Search Report from the German Patent Office identifying references made of record in the corresponding German patent application. For the convenient reference of the Examiner, a copy of the German Search Report is also attached.

German Patent Publication DE 19 17 864 A1 shows a yarn guide disk caused to rotate by contact with the yarn.

German Patent Publication DE 21 26 841 A shows a sliver spinning device with rotating spinning chamber in which a disk rotates that is driven by a belt.

Of the remaining references submitted herewith, the applicants do not have English translations of the non-English references, but an English abstract and/or a U.S. Patent counterpart is also attached for each such reference.

Respectfully submitted,

Karl S. Sawyer, Jr.
